To: All BISD Stakeholders
From: Greg London
Subject: Procedures for School closing or late start

As we get into another school year, I want to take this opportunity to communicate with all stakeholders on the procedures that will be used for school being closed or late start on an instructional day. Our top priority will be the safety of our students, staff, and community. It can be a difficult decision when dealing with inclement weather conditions or other situations that may arise. We will make those weather related decisions as early as possible, but in many cases that may be early of the day in question after our team has been able to access road and weather conditions. It is possible that we will make the decision the day or evening before depending on the information that we have at our disposal. Each situation will stand alone and be dealt with accordingly. *If BISD has school at regular time or has a late start during a weather event involving frozen precipitation, any student absence will be excuse for that day.* If we are having school, we would love to have each BISD child in attendance, but in those cases that involve possible frozen precipitation, please use your own judgment. Thank you for your cooperation and understanding in dealing with this issue when it presents itself. Below is a list of media outlets that will be notified by BISD in the event that BISD cancels school or delays the start of school for any reason.
